MOHAMMAD UMER KADIWAL

Third Year, B.E. Information Technology | Mumbai, India
+91 99677 23215 | umer.241419.it@mhssce.ac.in | github.com/umer241419it-hue

ABOUT ME

Third-year IT student (CGPA 9.13/10) building full-stack and security-focused systems. Lead developer of SentinelVision, an offline integrity-assurance platform for computer vision pipelines (Smart India Hackathon 2026, internal round cleared). AWS Certified Cloud Practitioner (CLF-C02); works with React, Node.js, MongoDB, Python and AWS.

EDUCATION

Bachelor of Engineering – Information Technology CGPA: 9.13/10
Anjuman-I-Islam's M.H. Saboo Siddik College of Engineering, Mumbai University | 2024–2028

TECHNICAL SKILLS

- **Programming Languages:** C, Java, JavaScript, Python, SQL
- **Frontend Development:** HTML5, CSS3, React.js, Vite, React Router, Node.js, Express, REST APIs
- **Databases:** MongoDB, SQL
- **Cloud & DevOps:** Amazon Web Services (AWS), Git, GitHub, Jenkins, CI/CD Pipeline
- **AI/ML & Security:** PyTorch, Machine Learning, Computer Vision, Ed25519, SHA-256, Hyperledger Fabric

PROJECTS

SentinelVision | Python, PyTorch, Hyperledger Fabric, Node.js Click here to visit the repo

- Lead developer of an offline integrity-assurance platform for computer vision pipelines, covering training-data checks, backdoor detection in model weights, signed inference records and drift monitoring.
- Built a governance engine that produces Ed25519-signed assurance reports with a tamper-evident SHA-256 audit chain, anchored on a Hyperledger Fabric ledger.

BookInn | React, Node.js, Express, MongoDB, Razorpay API, AWS EC2 Click here to visit BookInn

- Built a full-stack MERN hotel booking platform with role-based access control, separate user/admin views, category-based search, live room availability, and user-specific booking management.
- Integrated Razorpay payments (test mode) with cancellation/refund workflows and transaction tracking; deployed on AWS EC2 with a deployment script, live demo hosted on Vercel, Render and MongoDB Atlas.

AWS SBG MHSSCE Website | React, Vite, CSS Click here to visit the official AWS SBG MHSSCE website

- Contributed to the official AWS Student Builder Group MHSSCE website as a Core Team member, developing frontend features using React and Vite.
- Developed the About page from Figma specifications while working with an existing component library and shared design system.

Rebel Radio | React, Vite, JavaScript, React Router, localStorage, AWS S3 Click here to visit RebelRadio

- Built a React music app with persistent audio playback across routes (centralized PlayerContext) and localStorage-backed Favorites and Playlists; deployed on AWS S3.

LEADERSHIP & ACTIVITIES

AWS Student Builder Group (SBG) – Core Team Member: Contribute to cloud computing initiatives, technical activities, and community-building programs for students.

AWS Academy, MHSSCE — Member: Supported AWS Academy cloud, AI and ML initiatives.

ACM Student Chapter, MHSSCE — Technical Member: Contribute to technical events and workshops.

CERTIFICATES

AWS Certified Cloud Practitioner (CLF-C02) - Amazon Web Services
